

# Welcome to the Community Gaming Corner: Where Fun and Strategy Meet Outdoors!

As part of the 2025 Leadership Shelby County program, our group—the Community Gaming Corner Group—has teamed up with generous sponsors to create a space for our community to come together through the universal language of play!

## A Space for All Players

The Community Gaming Corner features beautifully designed tables and seating that invite you to sit, relax, and challenge a friend or meet a new opponent. It's the ideal spot to engage your mind while soaking up some fresh air. Please note that the tables are intended for gaming purposes only. They are not to be used for eating, sitting, working, or reading.

## Designed for Connection

Our open-air space is more than just a place to play; it's a gathering spot that fosters community and connection. With ample green space, local cafes, shops, and restaurants, the Community Gaming Corner is where people of all ages can come together, share strategies, celebrate victories, or learn from defeats.

## Why Visit?

**Free and Accessible:** No membership is required! We are committed to inclusivity and have one handicap-accessible table specifically designed for people in wheelchairs. This table is intended to ensure that everyone can enjoy the space comfortably, and we kindly ask that it be reserved for wheelchair users.

**All Ages Welcome:** Whether you're a beginner or a pro, there's always a game waiting for you.

**Relaxing Environment:** Enjoy the outdoors while you play, surrounded by greenery and a peaceful setting.

**Great for Socializing:** Meet new people and engage in friendly competitions.

## **Come Play Today!**
